

Why struggle with type 2 diabetes when you can reverse it?

One-year patient clinical trial results¹:

94% stopped/reduced insulin

30lbs average weight loss

1.3pt average HbA1c drop

Try a care option that uses food as medicine to help lower blood sugar

Virta Health can show you how to lower blood sugar and lose weight naturally by putting a healthy spin on your go-to meals. Virta is a virtual clinic that uses nutrition science and technology to reverse* type 2 diabetes and related issues in the body—no calorie counting or gym visits needed.

Get a custom food “prescription”

The American Diabetes Association believes that there’s no such thing as a diabetes diet² and Virta agrees. Every body is different. This is why Virta members get a custom plan to eat their way to better health. They also get ongoing support from medical providers, coaches, and digital monitors.

Members can see results in weeks thanks to personalized care plans that keep unique health needs and lifestyles in mind.

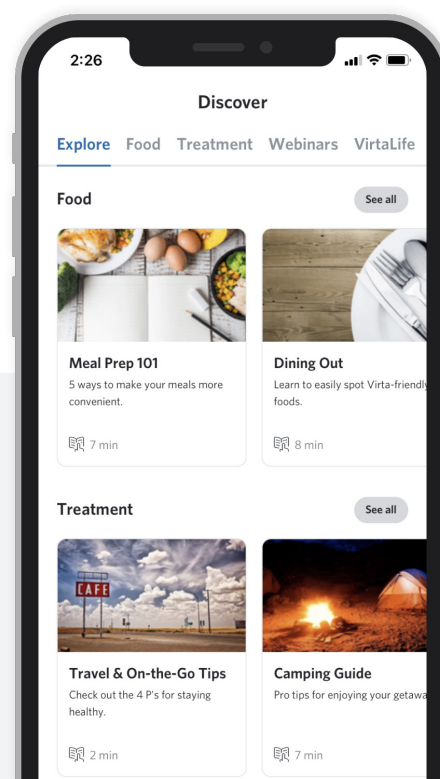

Everything to gain and nothing to lose

For those who qualify, the cost of Virta care is covered by your employer.
